

Thank you for purchasing the SHAKA surfboard display rack from Rado Racks!

To assemble your SHAKA rack follow these five simple steps.

1. Slide part (A) into part (B)
2. Insert dowel nut into hole with the dowel nuts slot facing out and parallel with the bolt slot. Now screw the two black bolts in.
3. Now bolt both arms on with the wing Nut being on the backside of the rack.
4. Remove backing on adhesive pads and place on contact points. Apply pressure for several seconds for optimal hold.

- You've done it! Now go surf!

Dowel Nut
